William Brodie and James Hamilton had many years experience in selecting and blending coffee and teas to satisfy the requirements of customers in Scotland and beyond. This has continued in an unbroken tradition to the present day.

Our mission now, as it was then, is to supply our customers with quality coffees and teas, freshly roasted and skilfully blended in the traditional way.

We also supply an award winning range of retail products in attractive and distinctive packaging that includes coffee, tea, speciality cakes and our luxury handmade chocolates from our small team of dedicated chocolatiers.
